ABSTRACT

COVID-19 sepsis is a redox-based illness most often associated with Maillard abuse-induced autoimmune dysfunction. COVID-19 vaccinations are often ineffective and contraindicated in the immunocompromised. Antibodies and other defense mechanisms cannot manufacture and mobilized when the body is in redox imbalance. In too many instances, the decision to vaccinate, mask up, and shelter-in-place is no longer between clinician and guest. Government officials continue to break US law and act unethical and immorally by making COVID-19 medical recommendations without being licensed and examining the recipient of their recommendations. Government-sponsored healthcare tyranny has replaced the sanctity of the confidential guest-clinician relationship. The purpose of this timely, poignant overview is to shed some light on the current global healthcare crisis hijacked by government officials funded and controlled by a fascist political party and corporatocracies they pander, gratify, and serve.

Keywords: Political Science; COVID-19; Maillard Abuse Disorder; Substance Abuse; Immunosuppression; Public Health, Epidemiology

Introduction

COVID-19 sepsis is a redox-based illness [1] most often associated with Maillard abuse-induced [2] autoimmune dysfunction [3]. COVID-19 vaccinations are often ineffective and contraindicated in the immunocompromised [4-7]. Antibodies and other defense mechanisms cannot manufacture and mobilized when the body is in redox imbalance. In too many instances, the decision to vaccinate, mask up, and shelter-in-place is no longer between clinician and guest. Government officials continue to break US law and act unethical and immorally by making COVID-19 medical recommendations without being licensed [8] and examining the recipient of their recommendations [9]. Government-sponsored healthcare tyranny has replaced the sanctity of the confidential

guest-clinician relationship. The purpose of this timely, poignant overview is to shed some light on the current global healthcare crisis hijacked by government officials funded and controlled by a fascist political party and corporatocracies they pander, gratify, and serve.

Historical Highlights of Fascistic Political Science

US constitutional republican President Abraham Lincoln was assassinated because he wanted to free African people from slave labor [10]. Today corporations have slaves outside the United States assemble many products in our homes and offices [11]. US Democrat President John F Kennedy dismantled the Central Intelligence Agency before his assassination, and top CIA government officials

ordered JFK's autopsy physician to leave the room [12]. District Attorney Jim Garrison's proof that more than one gunman shot JFK was ignored by Judge Charles Halleck [13] and included:

1. Dr. Robert McClelland, the senior surgeon, stated 'the cause of death was massive head and brain injury from a gunshot wound of the left temple.' At the same time, Chief Supreme Court Justice Earl Warren's, not a medical doctor and never examined JFK, specified the right side.
2. Dr. Robert Forman demonstrated that the same Earl Warren's-Magic Bullet theory 'could not have inflicted the neck wound on President Kennedy and all the wounds on Governor Connally.'
3. Dr. Cyril Wecht, a top forensic pathologist, pointed 'out a series of flaws in the handling of the autopsy from November 22, 1963, questioning the number and direction of shots.'

Garrison's court plea showed expert witness evidence that 'a single bullet did not hit both Kennedy and Connally.' 'The wound in the back of Kennedy's head was three inches higher than reported by the Warren Report.' 'There are no photographs of the front of the body.' Judge Halleck responded as Helen Keller, a brilliant blind and deaf author, disability rights advocate, and political activist. The 800-COCAINE Book of Drug and Alcohol Recovery [14] was the treatment model used for the first and largest chain of intensive outpatient day and evening lifestyle transitioning centers for adults and teens that also incorporated principles found within The Clinical Management of Nicotine Dependence [15]. The chain was owned by National Medical Enterprises (NME). The author's intellectual property was adopted and integrated by the President George H W Bush Administration, US Senate Select Committee on Intelligence under Senator Bill Bradley, and a Supreme Court Task Force on Drugs and the Courts [16]. All three branches of government consulted with medical experts before governing the era's substance abuse pandemic, and millions of people's health improved. Before being inaugurated, First Lady Hillary Clinton and Attorney General Janet Reno shut down NME by December 1992 [17]. First Lady Hillary Rodham Clinton chaired the Health Care Reform Initiative without medical education, degree, and public health experience.

Fascist Clintonian political science launched the Affordable Care Act and the ongoing chaos of global public health and epidemiology. Anthony Fauci MD has been a bureaucrat in Washington DC since 1968. The highest-paid federal employee is political scientist Fauci, with 417,608 USD per year. Unlike Hillary Clinton, Fauci does not make medical recommendations without a license. Fauci, like Hillary Clinton, makes medical recommendations without ever examining each recipient, a potential breach of administrative and criminal law, especially for non-democrats. Herein is a pivotal prompt to the next stage of enlightenment.

Political Scientists are Legally Untouchable

The Federal Bureau of Investigation used the inaccurate Steele Dossier, paid for by Hillary Clinton, to extract a sitting republican president with absolutely zero consequence [18]. Hillary Clinton used a private server for official email without penalty [19]. Hillary Clinton professionally erased her server and three thumb drives and showed probable cause in multiple felonies, including a conspiracy with Cheryl Mills and possibly others, to break several laws [20]. Hillary may be running for president in 2024 [21]. Supreme Court Chief Justice John Roberts screamed at other Justices not to take the voter fraud case [22]. Anthony Fauci approved hundreds of thousands of USDs for experiments on bat coronaviruses [23]. Fauci funded the Wuhan lab to make the COVID-19 virus more infectious and deadly [24]. Robert F Kennedy Jr said Dr. Tony Fauci and the Gates Foundation profit from COVID-19 vaccines [25]. New York governor Andrew Cuomo is responsible for five thousand COVID-19 nursing home deaths without a single summons to appear before a court of law [26]. The above otherwise criminal acts are permitted if the person committing them is in good standing within the democrat party, with little political pushback. A Missouri judge blocks President Joe Biden's COVID-19 vaccine mandate for federal workers in ten states [27] while the damage to people and their dependents is not reversed or compensated.

Conclusion

The author has no party affiliation other than the party of excellence in public health and epidemiology. His dedication to bringing the good news about the top killers globally, melanoidin-coated food, alcohol, and nicotine, continues in the face of being falsely arrested, issued a restricted medical license, defamed, oppressed, canceled, impoverished, persecuted, and otherwise silenced because of his outspoken stance. The spirits of Mao, Stalin, and Hitler roam the halls of the three branches of the US government. And no, the not-so United States is not alone. The World Health Organization, Davos, and others align with political scientists. We must retain our peaceful public health warrior bearing while some of our childish leaders demolish themselves with absolutely no assistance from us. We can do little politically when some of our leaders follow Stalin's golden rule: It's not the people who vote that count. It's the people who count the votes. Instead, realize that Big Pharma, Big Food, Big Alcohol, Big Nicotine, and others like things just the way they are currently. Stealthily, carefully, and quietly proceed to learn as much as you can about Maillard end-products and other addictive disorders in your medical population sphere. They know that prescribing pills is different from gradually selling baby steps towards a lifestyle transition plan to guests who would instead take pills. And not give up or reduce their intake of favored convenience foods, alcohol, nicotine, and other prime causes of

redox imbalance-based illnesses. The list is long and includes immunosuppression, severe acute respiratory syndrome, SARS-like illnesses, cardiovascular and cancer phenotypes, along with a litany of other leading causes of morbidity and mortality worldwide. Let us hope and pray that the political science pandemic is nearing its collapse. Until then, let us try and serve our people the best we can.
